Personal Projects

- **Time-Wise**   *Apr 15, 2023 - Jul 9, 2023*
  - Developed a robust time management web app similar to Clockify, during my training at PSEU
  - Utilized team management, Agile and Scrum methodologies, and the MERN stack for front and backend
- **Portfolio**   *Feb 21, 2024 - Mar 17, 2024*
  - Demonstrated practical expertise by developing a portfolio featuring projects utilizing HTML, CSS, JavaScript, and UI/UX design principles, showcasing the ability to design and deliver dynamic websites.

Education

B.S. in Computer Systems Engineering, Palestine Polytechnic University (GPA: 85.1)   *Sep 2020 - present*
Relevant Courses: Machine Learning, Ethical Hacking, Data Structure, OOP, Algorithms

Professional Experience

Software Engineer

Professional Software Engineering Unit (PSEU) - Sada Intelligent Solutions   *Jun 2022 - Jul 2023*

- Utilized web development technologies for front end (React JS) and back end (Node JS).
- Gained experience with NoSQL databases like MongoDB.
- Learned teamwork and agile and scrum methodology, using Jira, GitHub, and GitLab.

Front-End Web Developer

Foothill Technology Solutions, LLC   *Feb 2024 - Jul 2024*

- Built responsive web apps with React.js, React Router, and TypeScript for scalable and maintainable code.
- Developed reusable components with Storybook, ensuring quality through unit testing and modern front-end practices, mastering concepts through self-learning, and reading the official documentation.

Front-End Web Developer

Udacity - Nanodegree Program   *Oct 2024 - present*

- Created a responsive multi-page blog using **HTML**, **CSS**, Flexbox, and CSS Grid.
- Developed a dynamic landing page with **JavaScript** for DOM manipulation and interactive features.
